This session comes with my assistance on helping you create a memorable moment of who you child is at this time in their life.

I will help you come up with a theme and make your vision come alive. Also please note most children have a short attention span and typically don't like taking photos, that's okay! It's important to remember that we want to capture your child's personality and their features. They grow up so quickly!

Things to share with me

1. Who will be participating in the session?
2. What is your guys' favorite music or artists?
3. What are your expectations for this session?
4. What type of images are you most drawn to? For example, do you prefer more posed shots with everyone smiling and looking at the camera? Candid images? Interactive images?
5. What are your must-have photos?

If you're wanting family session..

1. Please share the ages of any kids!
2. What do you want to remember about your kids right now in 20 years?
3. What does a typical weekend look like for your family?
4. Do any of your kids have any quirks or funny habits you want me to capture?
5. What do your kids like to do in their free time?
6. How does your family feel close to one another?
7. Is there anything I should be aware of with your kiddos? any tips or ideas of things that may make them more comfortable with me photographing them?
8. Do you have any locations you'd love to shoot at (if light works out) or would you like me to pick the location?
